ELIGIBILITY

Projects located in the Houston metropolitan area designed by an architect registered in the US, or projects, regardless of location, designed by an architect registered in Texas practicing in the Houston metropolitan area. Built projects must have been completed after August 1, 2014 except for special requirements in the Urban Design category. On projects where construction is phased, only completed phases are eligible. Where one firm is not the sole author, all participants in the design work must be credited on the Entry Form. AIA Houston reserves the right to disqualify any entry not submitted in accordance with the rules.

If there are architectural elements that were pre-existing on the project and designed by another architect, that architect should be identified on the entry form. For instance, an addition to an existing building should identify the architect of the existing building where practicable and should clearly delineate for the jurors the addition from what existed before the project.

BUILT PROJECTS

Built projects may be submitted for recognition in the following categories. The jury may move a project to a different category. LEED, AIA COTE guidelines, or other demonstrable environmental response should be included with each entry and will be considered in judging.

ARCHITECTURE: GREATER THAN 50,000 SF

ARCHITECTURE: LESS THAN 50,000 SF

RESIDENTIAL ARCHITECTURE

Residential projects include single-family houses and multi-family projects up to 20 units. Large scale apartment or condominium projects must be submitted under Architecture.

INTERIOR ARCHITECTURE

RENOVATION/RESTORATION

Restoration, renovation, or rehabilitation to existing buildings including adaptive reuse. A non integrated addition to an existing building should be submitted under Architecture.

DIVINE DETAIL

Recognizes architectural ingenuity in the use of a particular material, detail, or building technology.

UNBUILT PROJECTS

URBAN DESIGN

Urban Design projects must have an active client. Submittals may include urban design projects, planning programs, civic improvements, environmental programs, and redevelopment projects. Portions of the project must be under implementation; however, the whole project need not to be completed. Project Description must include implementation schedule.

This category is for unrealized or uncompleted work for an active client.
